

THEIR WORLD HAS GROWN

CONGRATULATIONS TO
E-CYCLE RECOVERY PTY LTD
2012 MYOB SMALL BUSINESS AWARD

Over 16 million electrical items are thrown away each year. That inspired Michelle Morton to form E-Cycle, South Australia's only dedicated e-waste service. While hazardous material is diverted from landfill, materials like glass, plastic and precious metals are recycled. Using innovative and sophisticated recycling techniques supports the business's focus on social and environmental sustainability.

If you know a business that deserves to be celebrated, help them grow by nominating them today.
